Palgrave Studies in Impact Finance

SERIES EDITOR
Mario La Torre

ABOUT THE SERIES

The Palgrave Studies in Impact Finance series provides available scientific ‘tools’ for researchers, professionals and policy makers involved in impact finance and related topics. It includes studies in the social, political, environmental and ethical impact of finance, exploring all aspects of impact finance and socially responsible investments, including policy issues, financial instruments, markets and clients, standards, regulations and financial management, with a particular focus on impact investments and microfinance. Titles feature the most recent empirical analysis with a theoretical approach, including up-to-date and innovative studies that cover issues which impact finance and society globally.

If you are interested in submitting a proposal, please contact editor:
